

In Memory of

Dr. Harry S. Dennis, III

9 November 1943 – 27 April 2014

It is with tremendous sadness that we inform you that TEC's owner, Dr. Harry S. Dennis III, passed away on Sunday, April 27, 2014 from complications of Pulmonary Fibrosis.

One of Harry's greatest loves and the legacy he leaves behind is TEC – The Executive Committee. Harry was hired as a TEC Chairman in 1974 by TEC's founder Bob Nourse. It was then that Harry formed his first TEC Group – TEC IV – which remains in existence today, 40 years later.

Harry was best known for his intellectual brilliance and superb business savvy. All of us...TEC Staff and Chairmen...loved Harry for his unwavering adherence to TEC's values, his absolute fairness and his huge heart. He always treated us like Family.

Harry was TEC's owner, leader and Keeper of the Flame for more than 35 years and his intention is that TEC will continue on in perpetuity. He will be sorely missed by all of us but his legacy will live on.

For those of you who want to honor Harry, we are reinstating the Robert Nourse Scholarship Fund. More details will follow.

-Priscilla Kemp
TEC President & CEO
